HAM540001 Virtual Single-Point Module

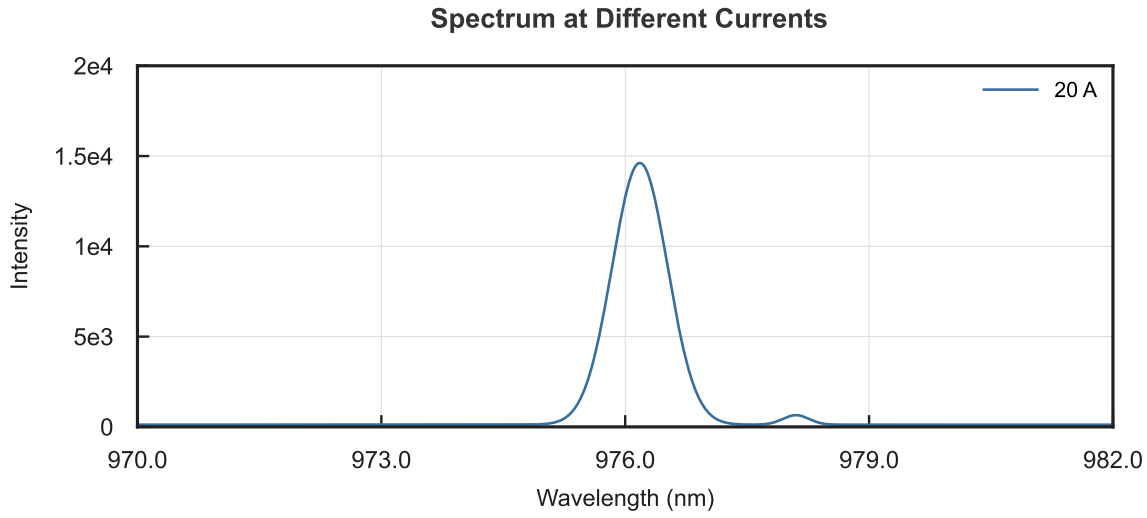

TEST SN: HAM540001_VIRTUAL

Performance @20A

Output Power (CW)	**9.7**	W	**Cooling Temperature**	**25**	°C
Operating Current	**20**	A	**Operating Voltage**	**12.15**	V
Center Wavelength	**976.18**	nm	**Slope Efficiency**	**0.486**	W/A
Spectral Width (FWHM)	**0.805**	nm	**E-O efficiency**	**4.00**	%
Wavelength-Current Coefficient	**N/A**	nm/A	**NA 0.17 Encircled Energy**	**98.0**	%

Spectrum

Notice: Everbright Photonics continuously improves its products to provide customers with outstanding quality and reliability. Specifications and product descriptions may be changed at any time without notice. Warranty support is provided to ensure customer satisfaction. For complete information, please contact our sales representative.
