500W 976nm 光纤耦合模块

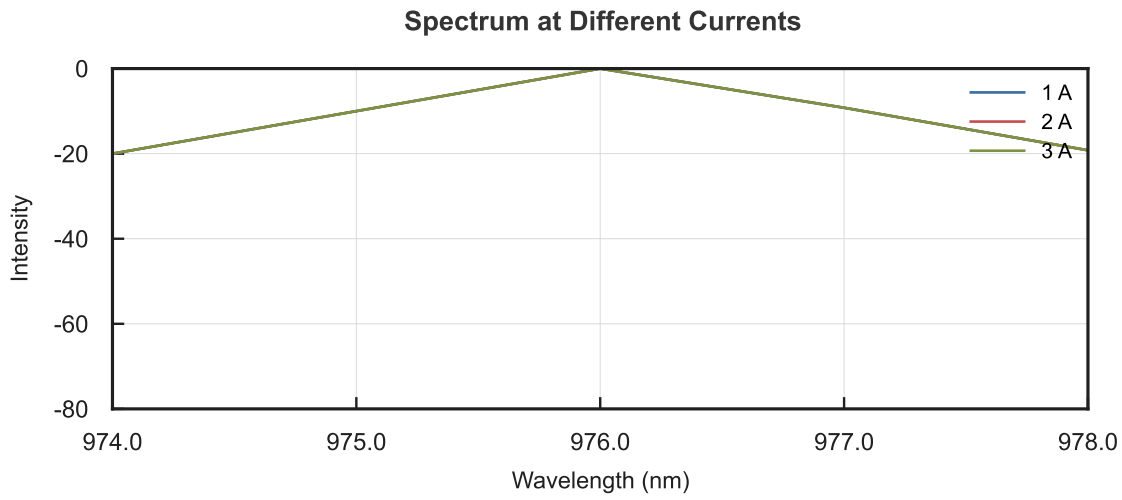

TEST SN: HEA000001

Performance @3A

Output Power (CW)	316.8	W	Operating Voltage	29.91	V
Operating Current	20	A	Slope Efficiency	15.839	W/A
Center Wavelength	975.128	nm	E-O efficiency	52.96	%
Spectral Width (FWHM)	0.748	nm	NA 0.175 Encircled Energy	95.5	%
Cooling Temperature	25	°C	Fiber Core Diameter	135	μm
Power Fluctuation	3	%	Fiber NA	0.22	

Spectrum

Notice: Everbright Photonics continuously improves its products to provide customers with outstanding quality and reliability. Specifications and product descriptions may be changed at any time without notice. Warranty support is provided to ensure customer satisfaction. For complete information, please contact our sales representative.
