300W 976nm Fiber Coupling Module (Synthetic Data)

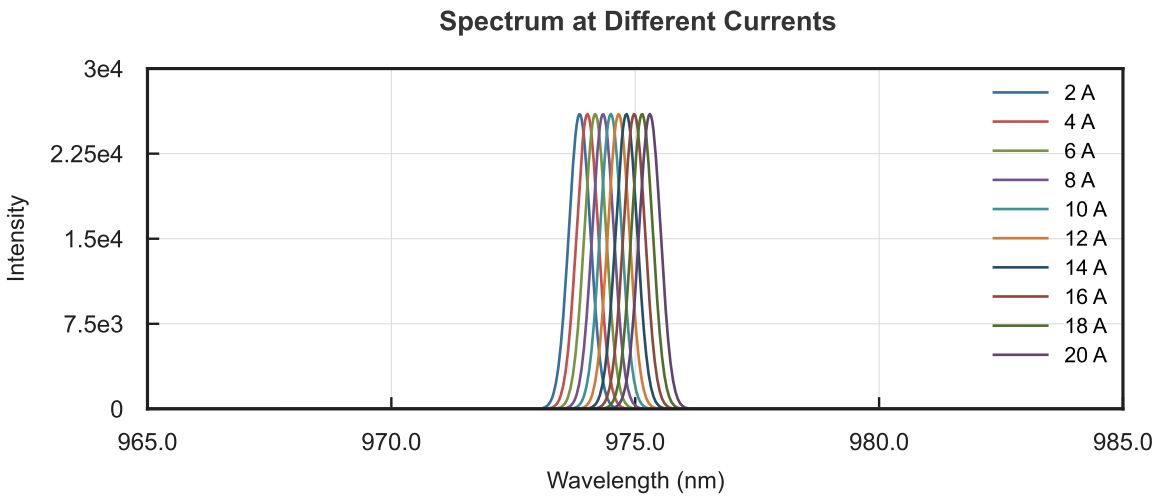

TEST SN: HEA000001

Performance @20A

Output Power (CW)	**304**	W	**Operating Voltage**	**29.6**	V
Operating Current	**20**	A	**Slope Efficiency**	**15.2**	W/A
Center Wavelength	**976.2**	nm	**E-O efficiency**	**51.35**	%
Spectral Width (FWHM)	**0.3**	nm	**NA 0.175 Encircled Energy**	**95.5**	%
Cooling Temperature	**25**	°C	**Fiber Core Diameter**	**135**	μm
Power Fluctuation	**3**	%	**Fiber NA**	**0.22**	

Spectrum

Notice: Everbright Photonics continuously improves its products to provide customers with outstanding quality and reliability. Specifications and product descriptions may be changed at any time without notice. Warranty support is provided to ensure customer satisfaction. For complete information, please contact our sales representative.
